

SUNDAY REPUBLIC'S PAPER DOLL SERIES.

Here is an attractive paper doll and some garments for it. Cut out the doll and mount it on a piece of heavy cardboard. Then cut out the dresses and hats, being careful not to clip off the dotted lines. Place the garments over the figure and fasten them by turning back the slips in lines.

**ATTRACTIVE PYROGRAPHY PATTERN FOR JEWEL  
BOX, TABLE OR ORNAMENTAL SCREEN FRAME.**

WRITTEN FOR THE SUNDAY REPUBLIC.

As simple as it may seem, let the amateur art worker attempt a design of conventional scroll sort and he will find upon his hands a task more difficult than that of executing something of a more sketchy sort.

The design here given will meet a need for a suitable and effective pattern for a border to be used in a screen frame, for the top of a glove or jewel box, a work-table edge; in fact, upon any article of

furniture or piece of fancy work where a border may be required.

The border may be of any length desired, as it will but be necessary to join edges artistically, and in turning corners, if this is to be done, the worker will devise the best method of arranging the scrolls in tracing his pattern.

To transfer the SUNDAY REPUBLIC'S pyrography designs to wood, leather or fabric—the latter if the pattern is to be used for embroidery—place a sheet of carbon paper between the pattern and

the article to be decorated, and trace the design carefully with a sharply pointed pencil. In cutting out the pattern leave a margin an inch wide all around, and pin down the pattern securely.

This pattern will be followed by a "hanger" bearing a verse from one of the favorite poets, artistically lettered. Good lettering is one of the stumbling blocks in the pyrographers' way.

Watch the **SUNDAY REPUBLIC** and secure **FREE** an excellent collection of designs for pyrography.
